Adobe's Seattle campus is located in the heart of the Fremont neighborhood, just north of downtown, on the shore of Lake Union

Note: The street address is relatively meaningless to most locals. If you get lost and need help, ask for directions to Fremont, or "the 'Waiting For The Interurban' statue in Fremont." If you can find Fremont, you can't miss the Adobe campus: we're the biggest thing in the neighborhood. Adobe's two buildings are located between the two bridges, along the waterfront. By car, enter the campus under the tall bridge.
